U.S. National Cyber Strategy

ASEAN Regional Forum ISM on ICTs Security

Singapore,
March, 2019

U.S. National Cyber Strategy

Protect the American People, the Homeland, and the American Way of Life

Promote American Prosperity

Preserve Peace through Strength

Advance American Influence

Pillar I: Protect the American People, the Homeland, and the American Way of Life

- Secure Federal Networks and Information

- Secure Critical Infrastructure

- Combat Cybercrime and Improve Incident Reporting

The Department will continue to enhance international cooperation on cybercrime and cybersecurity by strengthening partner nations' capacity to combat criminal cyber activity and improve incident reporting and response.

Pillar II: Promote American Prosperity

- Foster a Vibrant and Resilient Digital Economy

- Foster and Protect United States Ingenuity

- Develop a Superior Cybersecurity Workforce

The Department will continue to foster a vibrant global technological ecosystem that enhances economic growth, innovation, and efficiency worldwide by promoting the free flow of data across borders.

Pillar III: Preserve Peace through Strength

- Enhance Cyber Stability through Norms of Responsible State Behavior

- Attribute and Deter Unacceptable Behavior in Cyberspace

The Department will continue to enhance international security in cyberspace by promoting the strategic framework for stability in cyberspace and deterrence.

Pillar IV: Advance American Influence

- Promote an Open, Interoperable, Reliable, and Secure Internet

- Build International Cyber Capacity

*The Department will continue to support a multi-stakeholder approach
to internet governance, advancing human rights online,
and improving the cyber-capacity of our foreign partners.*

Thank You
