

# International Strategy of Cooperation on Cyberspace

---People's Republic of China

A decorative graphic on the right side of the slide. It features a blue grid background. A white, wavy line, resembling a signal or data path, starts from the bottom left and moves towards the top right. A grey, paper-like shape is layered over the grid, appearing to peel away from the bottom left corner.

# Basic Principles

```
graph TD; A[Basic Principles] --- B[Peace]; A --- C[Shared Governance]; A --- D[Sovereignty]; A --- E[Shared Benefits];

---

# Conclusion

**The 21st century is an era of the Internet and IT application. China will, guided by the vision for a new type of international relations featuring win-win cooperation, work with the international community to strengthen communication, deepen mutually beneficial cooperation, forge partnership and build a community of shared future for mankind, thus making greater contribution to a secure, stable and prosperous cyberspace.**

Thank you !
