

Fostering cybersecurity collaboration is critical given the danger of cyber threats

- Singapore as a networked society
- High internet penetration and robust infrastructure
- Borderless nature of cyber threats

Adopting a whole-of government approach to cybersecurity

- MINDEF's efforts complement national-level initiatives
- Range of agencies responsible for different areas of cybersecurity
- Ensures coordinated and comprehensive approach to defend against cyber threats

Working with other stakeholders in the region and in the world

- Singapore Computer Emergency Response Team (SingCERT) was set up in Oct 1997
- Promotes collaboration among the CERTs in ASEAN
- Helps to plans and execute the ASEAN CERT Incident Drill (ACID)

Collaborating with like-minded global partners

- INTERPOL Global Complex for Innovation in Singapore to be opened in 2014
 - Facilitates cyber research and innovation
 - Provides cybersecurity training
 - Houses the INTERPOL Digital Crime Centre
 - Promotes international collaboration in cybersecurity

Partnering with private firms and companies to tap on different areas of expertise

- Symantec Security Response Center launched in Aug 2012
- Brings ASEAN into the Symantec Global Intelligence Network
- Strengthens regional coverage to monitor the changing cyber threat landscape

Organising conferences and dialogues to promote information exchange and discussions

Other public-private initiatives aim to raise public awareness on cybersecurity

Cyber Security Awareness Alliance

Public education is also an important component of Singapore's cybersecurity strategy

- Cyber attacks can cross borders from public sources
- Public education helps to prevent spread of cyber attacks
- Efforts implemented to raise cybersecurity awareness
